

Introduction:—

The Curriculum Committee should facilitate the development of the curriculum by interacting as much as possible with faculty members while developing curriculum proposals. In its review of proposals, the Curriculum Planning should seek to carefully evaluate the rationale and impact of proposals from an institutional and impact of proposals from an institutional perspective. The Curriculum planning Committee's principal objective is to review and evaluate the general education curriculum and the Curricula of major, minor, and other academic programs to ensure that they carry out the College's Stated mission.

The main Objective are :—

- * Review the Implementation of B.Ed teacher education Curriculum through discussions.
- * Organize meetings to plan, execute, and evaluate curricular activities each semester, focusing on local needs and the Institution's vision and mission.
